

ATA DELEGATE'S NEWS LETTER

The State Teams for Target Year 2009 have been posted at the link below. Congratulations to all who accomplished this honor. As I mentioned last month, the State Team requirements for TY2010 and beyond have been modified. The new requirements are also posted at a link provided below. There is, I believe, a slight typographical error in the revised State Team policy. The USTA has been made aware of it and I expect we'll see a correction shortly.

As I write this, we are about ten days away from the Purgatory Clay Sports Fall Opener shoot. This will be a three-day shoot on 20 – 22 November 2009. Pre-squadding is available at presquad.com. I've noticed that two of our friends from Idaho, Randy And Zella Corder are planning on attending, and I expect to see a good turn out by our friends from the Las Vegas area. Hopefully you will be able to make the trip also.

The 2009 Autumn Grand has just been concluded. There were a few Utahns who made the trip down to Tucson. At least two that I know of were successful. Earnie Shepherd won the B Class Doubles trophy in Event 5 and Sean Hawley defeated Rick Marshall in a shoot-off for the Doubles Championship crown. Additional results will be posted on the [Arizona State web site](#).

Keep in mind that pre-squadding for the Spring Grand starts on 30 November on presquad.com. The Spring Grand will be 22 – 28 February 2010 at the Tucson Trap and Skeet Club with a preliminary week tournament on 16 – 21 February 2010. The Spring Grand is a nice opportunity to take a break from our winter weather and enjoy the hospitality of the folks at Tucson T&S.

UP COMING EVENTS

PURGATORY GC	NOV. 20-22
PURGATORY GC	JAN. 9–10
PURGATORY GC	FEB. 6–7
SPRING GRAND	FEB. 22–28
OGDEN GC	FEB. 27 - 28
Non-Registered	"Fun Shoots"
See USTA website	For Dates

We've received information about fun shoots from a few of the clubs. That link is at the bottom of the home page. If you know of other shoots, contact the web master so that we can get that information out to all the shooters.

Thank You,

Scott Hoover
