

# ATA DELEGATE'S NEWS LETTER

Welcome, to the new Utahtrap.com site

I'll use this space to periodically communicate information to the trapshooters of Utah. I also have an article in Trap & Field each month, and you can post questions to me on my forum area at [utahtrapshooters.com](http://utahtrapshooters.com).

My e-mail and phone number are on the ATA Utah page if you'd like to communicate with me privately.

At this time I'd like to talk about what we expect for the new Utah Trap website. We'd like this site to be the primary source for information regarding ATA Registered trapshooting, and trapshooting in general, in Utah. Toward that end we hope to be able to provide shoot programs, shoot results, and basic club information. This requires the support of the various club officers and even members. If you can help get information to us so that we can post it, your help will be greatly appreciated.

As you no doubt noticed, the home page of this site contains the current target year's schedule. For each listing we'd like to be able to "hot link" to a shoot program. You can see an example of the basic program information that we hope will be provided to us for posting by clicking on the Cedar Gun Club link for 8 – 9 August.

We'd also like to be made aware of shoot cancellations and additions so that the schedule can reflect the current shoots. And when the shoot is over, we'd like to be able to link to the results on the Results page. I think that all of the new information is correct, however, if you find something that is incorrect, a polite, "heads up," e-mail to the USTA or myself would be appreciated.

I'll be heading to Sparta for the Grand American later this week. My next posting will cover what happens there.

In the mean time, keep your eye on 'em and shoot well.

**Thank You,**

**Scott Hoover**  
ATA Delegate

## UP COMING EVENTS

Non-Registered	"Fun Shoots"
See USTA website	For Dates
